Liread

Read a few pages every day. Build wisdom that lasts.

A quiet, distraction-free reading app across web and mobile. Features a gentle focus timer, relaxing background sounds, notification blocker, offline reading, and a friendly community.

Web • Android • iOS

React 18 + TypeScript

Supabase Cloud Database

Built-in Ambient Audio

Our Mission

Helping people read deeply again in a world full of digital distractions

> "We want real wisdom, but we are drowning in phone notifications."

Liread is built to help you regain your focus. Instead of competing for your attention with quick dopamine hits, Liread gives you a peaceful space to read without interruptions, block distractions, enjoy great books, and build a daily reading habit that lasts.

Screens Are Stealing Our Reading Time

Endless scrolling has quietly replaced our time with books

144m

DAILY SCREEN & SOCIAL MEDIA TIME

Most people spend over 2.4 hours every single day scrolling short videos and feeds, making it hard to sit still and focus on a book.

< 14m

DAILY BOOK READING TIME

Actual reading time has dropped by over 40% in the last decade. We all want to read books, but constant phone alerts get in the way.

Why We Never Finish the Books We Start

Starting a book is easy. Keeping the habit until the final page is hard.

74%

OF BOOKS STARTED ARE LEFT UNFINISHED

Without a simple timer and a quiet reading space, 3 out of 4 books get dropped around page 60. A single notification buzz ruins your concentration, and the book ends up sitting on the nightstand forever.

Reading Alone Makes It Hard to Stay Motivated

Workouts have gym buddies. Runners have Strava. Reading is still completely lonely.

Good habits are easier to keep when you share them with others.

Research shows that having a supportive community increases your chance of sticking to a habit by **65%**. But today, readers are stuck between reading alone with zero encouragement, or visiting noisy commercial book sites with endless clutter.

What's Missing: A friendly, quiet place where you can share daily progress and favorite lines with real readers.

Great Quotes and Ideas Get Forgotten

We read life-changing sentences in books, only to forget them days later

Underlined Lines Disappear on the Shelf

When you find an inspiring quote or a powerful takeaway, you usually underline it in pencil and never see it again, or it gets trapped inside an e-reader app. There is no simple way to organize your favorite lines and share them with other readers.

The Old Way

Underlined sentences forgotten on a dusty shelf or trapped in locked apps.

The Liread Way

Save any quote with a single click into your personal notebook and share it with the community.

Introducing Liread

A calm online reading room built for real focus and book lovers

Focus in Private. Share in Public.

Liread brings together everything you need to read consistently: a full-screen focus timer, an in-reader notification and app blocker, calming background sounds, a free offline book reader, and a friendly community to share quotes and thoughts.

Clean Reading Timer

Full-screen timer with custom daily goals to keep your reading on track.

Notification & App Blocker

Silences alerts and keeps you focused inside the book without distractions.

Free Library & Offline Reader

Read thousands of classic books offline across web and mobile.

Quote & Community Feed

Save your favorite lines and see what fellow book lovers are reading.

Small Daily Reading Adds Up Fast

Just 15 minutes a day turns into dozens of completed books

18
Books

FROM JUST 15 MINUTES DAILY

Reading for just 15 minutes each day adds up to over **1,200,000 words**—enough to finish 18 full books every single year.

109
Hours

OF FOCUSED READING TIME

That is 4.5 full days of calm, uninterrupted reading won back from endless phone scrolling every single year.

Distraction-Free Reading Timer

A simple timer that keeps you focused without loud alarms or pressure

Full-Screen Focus Mode with Daily Goals

The timer gives you a gentle stopwatch that tracks your daily reading. It helps you stay in the zone without loud bells or countdown anxiety.

- **Easy Daily Goals:** Pick quick goals (15m, 30m, 45m, 60m) to grow your daily streak.
- **Floating Mini-Timer:** Keep the timer running at the bottom of your screen while browsing your library.
- **Automatic Progress Saving:** Every finished session is automatically saved to your profile and streaks.

Built-In Background Sounds for Focus

Calming background audio created directly in your browser with zero loading time

Instant Ambient Audio Without Heavy Streaming

Instead of loading heavy audio files that eat up your mobile data, Liread generates natural ambient sounds right inside your device. They play smoothly, loop forever, and work completely offline.

Calm Rain
Gentle rain sounds

Fireplace
Cozy warm crackles

Deep Space
Deep calming tone

Morning Birds
Peaceful chirps

In-App Offline E-Reader

Open and read EPUB and PDF books right in your browser or phone without external apps

Read Any Book Offline with Zero Extra Software

Liread turns your device into a clean, comfortable e-reader. You can read uploaded files or free classics anywhere, even without an internet connection.

- **Saved on Your Device:** Your books and exact page positions are saved securely in local storage.
- **Works 100% Offline:** Read on airplanes, buses, or off-grid without needing Wi-Fi or mobile data.
- **Custom Reading Comfort:** Easily adjust font size, line spacing, and switch between light and dark reading themes.

Focus Shield: Block Notifications & App Switching

Keeps you focused inside your book by muting alerts and stopping accidental app-switching

A True Distraction Shield While You Read

The biggest reason people stop reading is a sudden phone alert or the urge to check other apps. Liread's Focus Shield locks out distractions so your device becomes a dedicated reading terminal.

- **Automatic Notification Silencing:** Mutes annoying sounds, popups, and tab badges while you are reading.
- **15-Second App-Switching Timer:** When you attempt to switch to another app, a 15-second countdown prompts you that you are in the middle of reading, giving you time to stay in the book.
- **Keeps Screen Awake:** Automatically prevents your phone or laptop screen from turning off while you read a long page.
- **Accidental Exit Protection:** Asks for a quick confirmation before closing, protecting your reading streak and page spot.

Free Book Discovery & Exploration

Browse and find millions of free classic books across 14 popular categories

Millions of Classic Books at Your Fingertips

Liread connects directly to open digital libraries like Open Library and Project Gutenberg, giving you instant access to world-famous books without paying or signing up for subscriptions.

- **14 Curated Genres:** Browse Philosophy, Psychology, Science, Habits, Fiction, History, and more.
- **Book of the Week:** Discover a hand-picked classic each week with a summary and a one-click reading timer.
- **Beautiful Custom Covers:** Automatically displays clean, elegant book covers for a bookstore-like browsing experience.

Share Favorite Quotes & Thoughts

Post memorable book quotes, reflections, and insights with fellow readers

Share Insights and Discover Great Books

Liread gives book lovers a dedicated place to share favorite passages and chapter reflections with people who love the same books.

- **One-Click Quote Saving:** Save any sentence you read straight into your personal notebook with a single click.
- **Chapter Notes & Takeaways:** Share your favorite lines and chapter summaries with the reader community.
- **Thoughtful Discussions:** Connect with fellow readers by commenting on chapter takeaways, sharing recommendations, and exploring new genres.

Live Quiet Reading Room

See other people reading around the world at the exact same moment

Quiet Company Without Video Calls or Noisy Chats

Reading together feels motivating, but group video calls are exhausting. Liread lets you see a gentle count of readers reading with you right now, giving you quiet companionship without distractions.

- **Live Presence Counter:** When you start your timer, you quietly join the global reading room.
- **Shared Books:** See that other readers are enjoying books like *Meditations* or *Atomic Habits* right now.
- **Friendly Motivation:** Know you're not reading alone, keeping you inspired to finish your daily pages.

Your Personal Bookshelf & Reading Streaks

Organize your reading list and watch your daily streak grow day by day

Track Your Books and Earn Reader Ranks

Organize your books into "Want to Read", "Currently Reading", and "Completed". As you read daily, Liread tracks your total minutes and rewards your consistency.

- **Automatic Streak Tracker:** Read every day to build and protect your reading streak.
- **Reader Levels:** Progress from Novice Reader to Bookworm, Avid Reader, and Master of Tomes.
- **Private Notes:** Keep personal notes on each book, completely private to you.

Smart In-Book AI Assistant

Instant explanations for difficult sentences and unfamiliar words without leaving your page

Instant Explanations & Idea-Based Quote Search

Classic literature and philosophy can sometimes feel challenging. Liread includes a helpful, quiet AI companion built right into the reader:

- **Clear 2-Sentence Explanations:** Tap any complex paragraph to see a simple, spoiler-free explanation in everyday language.
- **Search by Concept:** Find saved quotes by idea (like *"quotes on handling worry"*) even if you don't remember the exact words.
- **Instant Word Definitions:** Understand old-fashioned or rare words instantly with a single tap.

Read Together with Friends at Your Own Pace

Flexible group reading with spoiler-protected chapter discussions and voice notes

Social Reading Without Pressure or Scheduling Conflicts

Traditional book clubs are difficult to schedule. Liread lets friends and reading groups read together comfortably:

- **Spoiler-Safe Chapter Unlocks:** Your friends' notes on Chapter 3 remain hidden until you finish reading Chapter 3 yourself.
- **Short Voice Reflections:** Leave quick 30-second audio thoughts on your favorite paragraphs for your group to hear.
- **Private Reading Circles:** Create private groups for your close friends, family, or book clubs with shared bookshelves.

Seamless Sync Across Phones, Tablets & E-Readers

Read wherever you want—your progress, streaks, and notes sync instantly

One Unified Reading Experience on Every Screen

Whether you prefer reading on your Android phone, iPad, laptop, or dedicated Kindle e-reader:

- **Universal Progress Sync:** Put your phone down and pick up your laptop—your reading minutes and exact page are always ready.
- **High-Contrast E-Ink Mode:** Clean monochrome layout optimized for battery efficiency on e-ink devices like Boox and Kindle.
- **Home Screen Streak Widgets:** Quick glanceable widgets on your phone home screen showing today's reading goal.

How Liread Works Under the Hood

A fast, reliable app designed to load instantly and work smoothly anywhere

1. Client App (Web & Mobile)

React 18, TypeScript, and Vite. Super fast load times (<125kB download), smooth animations, background sound generator, and offline book storage.

2. Fast Cloud Edge

Serverless edge functions for streaming free classic books, handling book searches, and delivering fast catalog requests.

3. Cloud Database

Supabase PostgreSQL database keeping user accounts, reading timers, streaks, and quotes safe, private, and synced across devices.

Fast, Smooth User Experience

Built with modern web tools for instant screen changes and zero delays

Instant Updates with Clean State Management

Using lightweight state stores (auth, timer, reader, and feed), the app updates instantly when you click a button or turn a page without freezing or unnecessary delays.

- Reliable code with strict TypeScript checks ensuring zero runtime crashes.
- Smart code splitting so the device only downloads what you need when you need it.

```
// Clean, fast state store with automatic saving
export const useFeedStore = create<FeedStore>()(
persist((set, get) => ({ posts: [], sortBy:
'latest', toggleUpvote: async (postId, userId)
=> { // Instant visual update set((state) => ({
... })); await postsService.toggleUpvote(postId,
userId); } }), { name: 'liread_feed_state_v2' })
);
```

Instant Book Downloads Without Blockers

Quickly streams free classic books from public libraries directly to your reader

Fast & Reliable Book Delivery (/api/book-file.ts)

When readers open a classic book from Project Gutenberg or Internet Archive, security rules often block direct downloads. Liread uses fast edge servers to deliver the book smoothly in seconds.

- **Automatic Backup Formats:** If an EPUB version has an issue, it instantly tries a PDF copy.
- **Instant Library:** A built-in catalog lets you open top classic books in 0 seconds.
- **Reliable Caching:** Frequently accessed books are cached to ensure immediate opening for readers worldwide.

Clean & Organized Data Structure

Simple, well-structured database tables that keep your reading data organized

```
TABLE profiles ( id UUID PK, username TEXT UNIQUE, total_minutes INT, current_streak INT, rank_tier TEXT, daily_goal_minutes INT );
```

```
TABLE posts ( id UUID PK, user_id UUID FK, book_title TEXT, quote_text TEXT, upvotes_count INT, comments_count INT );
```

```
TABLE reading_sessions ( id UUID PK, user_id UUID FK, book_title TEXT, duration_minutes INT, session_date DATE );
```

Every table connects cleanly with foreign keys. Fast database indexes ensure searches and profile loads take only milliseconds.

Automated Streaks & Strong Security

Automatic habit updates on the server and strict privacy for your private notes

Automatic Streak Updates

When you finish a reading session, the database immediately checks your calendar, updates your daily streak, and awards your new reader level automatically.

```
EXECUTE FUNCTION handle_reading_session_inserted();
```

Strict Privacy Rules

Every user's private bookshelf and notes can only be viewed or edited by them. Your personal data is completely safe and isolated.

```
WITH CHECK (auth.uid() = user_id);
```

OUR CORE BELIEF

"Reading is easy when nothing is pulling you away."

Anyone can build a lifelong daily reading habit. When you remove notifications, stop phone distractions, and have a quiet place to read, finishing books becomes natural, peaceful, and enjoyable.

Let's Make the World Read Again.
